## Online Study Groups

### **Accounting Information Systems 4 cr with Constance Rodriguez**

spaces avail 11 Adv./Non-Liberal

\*\* Online Study Group \*\*

Accounting Information Systems provides accounting students with the knowledge and skills needed to work with computer systems and structured processes within accounting and finance departments. Topics include an overview of accounting systems, flowcharting and other process documentation methods, transaction cycles, business processes involving accounting and financial forecasts, reporting and the basics of electronic commerce. Students have an option to focus either on systems development or internal controls and security. A research paper on current computer accounting systems will be written in the last month of the term. Advanced level writing skills, knowledge and proficiency in Excel, PowerPoint and Word are required. Prerequisites: Intermediate Accounting 1 & 2, Cost Accounting.

### **Business and Professional Communication 4 cr with Robert Teitelbaum**

spaces avail 1 Intro and Adv./Liberal fulfills SUNY gen. ed. req | Basic Communications - fully

\*\* Online Study Group \*\*

This interdisciplinary study is an introduction (see comments below about 'advanced' level) to the communication skills required in professional contexts. The focus is on developing a working knowledge of the theory and skills necessary for successful communication in professional environments including building interpersonal relationships, using technology appropriately, networking, interviewing, working in groups and teams, and delivering professional presentations. Readings, assignments, and class discussions will focus on communication issues in the working world. There will be a significant "hands-on" component as students learn some technologies necessary for professional communications. The study is suitable for students from various professional backgrounds. This study may be taken at the introductory or advanced level, depending upon the student's background, foundational skills, and goals. Please contact Dr. Teitelbaum immediately after registration, if interested in taking this study at the advanced level.

### **College Algebra 4 cr with Barbara Burger**

spaces avail 6 Intro/Liberal fulfills SUNY gen. ed. req | Mathematics - fully

\*\* Online Study Group \*\*

This beginning algebra study covers linear equations, systems of linear equations, exponents and polynomials, factoring, rational expressions, roots and radicals, quadratic equations, introduction to functions, fractional exponents, and inequalities with absolute values.

### **College Mathematics 4 cr with Barbara Burger**

spaces avail 1 Intro/Liberal fulfills SUNY gen. ed. req | Mathematics - fully

\*\* Online Study Group \*\*

The purpose of this study is to introduce the student to mathematical concepts necessary for further study in areas such as business, mathematics, and science. Students undertaking this study should have some familiarity with basic mathematical concepts. Topics covered in this study include the following: basic numbering system, arithmetic operations, fractions and decimals, ratio and proportions, units and measurement, basic statistics, and an overview of basic algebraic concepts.

### **Computer Applications 4 cr with Barbara Burger**

spaces avail 7 Intro/Liberal

**\*\* Online Study Group \*\***

This study covers MS Office applications including Word, Excel, Access, Publisher, OneNote, PowerPoint and Outlook. An emphasis will be placed on fundamental concepts of word processing, spreadsheet applications and problem solving, database applications, and creating effective PowerPoint presentations.

**Cost Accounting 4 cr with Constance Rodriguez**

spaces avail 11 Adv./Non-Liberal

**\*\* Online Study Group \*\***

This study offers the student the ability to develop an understanding of the attributes of cost behavior, cost accumulation systems and techniques, management planning and control systems, relevant cost information for short-term decision making and accounting data in long-term capital budgeting decisions. It includes detailed coverage of cost-volume-project analysis; job order and process costing including spoilage, budgeting, standard costing and variance analysis; absorption and variable costing; relevant costs and capital budgeting. Notes: Participation in this study requires a working knowledge of spreadsheet software at an intermediate level. This study will require access to an online assignment site to complete assignments and students must purchase a textbook bundle that includes both the textbook and online study key. Prerequisite: Introductory Accounting 1 and 2; Intermediate Accounting 1.

**Crimes Against Animals: History & Legal Aspects 4 cr with William Martin**

spaces avail 13 Adv./Liberal

**\*\* Online Study Group \*\***

This study will focus on the history and development of the animal protection movement. The student will study the profound moral, philosophical, and legal questions provoked by the issues the animal rights movement has created. This study will also focus on how the movement reshaped itself as it has evolved within the broader social context of the shift of the United States from an industrial to a post industrial society. Few Americans today perceive either the companionship or the consumption of animals in the same manner as did earlier generations. Moreover, powerful and lingering bonds connect the seemingly disparate American Society for the Prevention of Cruelty to Animals of the nineteenth century and the People for the Ethical Treatment of Animals of today. For the Prevention of Cruelty tells an intriguing and important story that reveals society's often changing relationship with animals through the lens of those who struggled to shepherd the public toward a greater compassion.

**Digital Photography/Advanced 4 cr with JoAnn Kingsley**

spaces avail **\*CLOSED\*** Adv./Liberal fulfills SUNY gen. ed. req | The Arts - fully

**\*\* Online Study Group \*\***

This is an Advanced level study of Digital Photography with an emphasis on the basic history and principles of photography, how to use your digital camera and what constitutes a "good" photograph. Students should acquire a camera with manual settings to use for this study. Students who have little or no previous background in photography are welcome to register for this study. However, the academic expectations for this study will be at the advanced level. For example, appropriate research writing skills will be expected as well as a recognizable awareness of how to demonstrate college level learning to the mentor. Please see the note above about the need to join the private Facebook study group. Upon registering, students should contact the instructor to get started with this study.

**Human Resources Information Systems 6 cr with MD Haque**

spaces avail **\*CLOSED\*** Intro and Adv./Non-Liberal

**\*\* Online Study Group \*\***

Among the recent developments in the field of human resources management (HRM) is the increasing use of information technology. As a result of both the expansion of HR activities and mandates from federal and state statutes, record keeping is becoming an essential part of human resource practitioners' responsibilities. Students should be acquainted with the "best practices" and creative ideas in human resource information systems, and familiar with some cutting-edge HR software packages. Topics covered in the study include database concepts and applications in HRIS, the system development life cycle, and effective approaches to the measurement of human capital and the impact of people on organization processes, for example, HR programs such as recruiting. This study can be offered at the introductory or advanced level. This course is offered jointly with Dr. Angela TitiAmayah.

**International Human Resource Management 4 cr with Angela TitiAmayah**

spaces avail **\*CLOSED\*** Adv./Non-Liberal

**\*\* Online Study Group \*\***

This comprehensive study offers an integrated introduction to the strategic, organizational, human resource and industrial relations issues posed by globalization. Multinational corporations require not only coordination of their international strategy, but also the people and the organization to implement it. This study focuses on resource policy and practice and encourages students to develop their understanding of the processes involved and to formulate their own strategic solutions. The study covers four major areas: the changing international context of contemporary business and its implications for human resource strategy; national differences in human resource management and their effects on organizational and personnel policy in multinational corporations; the practicalities of appointing and managing an international staff, including the processes of assessing and rewarding the managers and questions of industrial relations and industrial democracy and their relation to the functioning of multinational corporations. Prerequisites: Human Resources Management or equivalent.

**Intro to Accounting 1 Online Group 4 cr with Constance Rodriguez**

spaces avail 1 Intro/Non-Liberal

**\*\* Online Study Group \*\***

This group study of financial accounting will cover the basic principles and procedures for gathering, recording, summarizing and interpreting accounting data. The student will examine generally accepted accrual accounting principles for measurement and reporting of financial information in a balance sheet, retained earnings and the income statement. Topics include cash, accounts receivable and bad debt, inventories and the cost of goods sold, depreciation, internal control, equity, debt, cash flows and statement analysis. Note: Participation in this study requires the previous use of Excel, including formulas and formatting. In addition to Moodle, it requires the use of an online homework system requires that you have daily access to the Internet as assignments are completed via an online homework system. The student must purchase a bundle that includes the textbook and online system access key.

**Intro to Accounting 2 Online Group 4 cr with Constance Rodriguez**

spaces avail 9 Intro/Non-Liberal

**\*\* Online Study Group \*\***

This is a continuation of Introductory Accounting 1 and moves the student from the study of financial accounting into the behind-the-scenes accounting, managerial accounting. Students will focus on managerial accounting topics including costing for manufacturing and services, measuring unit costs and cost control, cost-volume-profit analysis and increment analysis in decision-making, operational budgeting and capital investment decisions. Note: Participation in this study requires the previous use and basic knowledge of spreadsheet software and online computer skills. Student will use Moodle and an online homework system, requiring that they have daily access to the Internet. The student must purchase a bundle that includes the textbook and online system access key.

**Introduction to Digital Photography 4 cr with JoAnn Kingsley**

spaces avail \*CLOSED\* Intro/Liberal fulfills SUNY gen. ed. req | The Arts - fully

**\*\* Online Study Group \*\***

This study is designed to offer students an opportunity to gain a general understanding of the history of photography, the tools and equipment used in photography, how to use their camera and what makes a "good" photograph. Students are advised to obtain a camera with manual settings (ISO, aperture and shutter speed) to use for this study. This is an introductory level study. Students who are interested in taking digital photography at the advanced level should register for the "Digital Photography" study. Upon registering, students should contact the instructor to begin discussing camera selection and being added to the Facebook group.

**Introduction to Spanish 3 cr with Teresa Wormley**

This blended mode study will guide students in the exploration of a wide-range of topics in basic college math. The educational process is built around practice and help. Specifically, it is designed for the adult learner who has not utilized math for some time, needs brush up, or needs to build up confidence in math. Topics include whole numbers, integers exponents, order of operations, fractions, mixed numbers and decimals, ratio, proportion and percent, reading graphs, geometry and measurement, equations and inequalities, graphing equations and inequalities, equations solving, introduction to probability & statistics. The student will utilize a website to provide multimedia learning aids to enrich the learning experience. Study group meetings will be held frequently - providing the student with reinforcement of concepts and applications; a forum for asking questions; and additional instructional opportunities for the topics covered. Most assignments in this course will be completed through the study website, which has many options for self-help as well as communication with the mentor for assistance.. Student concerns regarding this process should be brought up to the mentor as soon as possible (preferable even prior to the start of the term) to discussion options. Students will learn math in an environment structured to help build the skills and confidence needed to be successful in other studies that require basic quantitative skills. Topics include whole numbers, integers exponents, order of operations, fractions, mixed numbers and decimals, ratio, proportion and percent, reading graphs, geometry and measurement, equations and inequalities, graphing equations and inequalities, equations solving, introduction to probability & statistics. Questions about the study or about the material and the level of math that works best for an individual student should be addressed to the instructor.

This study will introduce students to the subject of ethics and its focus on living a good life. Major ethical theories will be discussed and explored using examples that students can apply to their daily lives. Designed to help students analyze and develop reasoned arguments in support of various ethical positions, the study will demonstrate that even simple situations involving conflicting interests bring ethical questions into play. A particular focus on the relevance of ethics to leadership will be part of the study.
